

Social Media Toolkit

22 - 23 May 2019

YOUR CHALLENGE

We want to inspire the food community to speak up. You have the ability to influence the future of food. After this event, you won't just have the ability, you'll have the passion too!

We invite you to showcase your dedication to supporting crop conservation efforts and use your social channels to promote the Food Forever Experience and ingredients, and capture in-the-moment content during the event. Follow Food Forever @FoodForever2020 on Instagram, Facebook and Twitter and follow the event with #LetsPlantTheSeed #FoodForever #FoodForeverExperience

Tips

- Post on your own social media pages while on-site (we've included some example language for you below)
- Share photographs or video of the food you eat, highlighting local Andean diversity
- Share selfies or videos of you at the event with the branded items on display at the experience!

RUN OF SHOW

22 May, 7 pm: *Welcome drinks at Calle del Medio restaurant.* On May 22, participants will be greeted at Calle del Medio, a modern restaurant overlooking the main square of the city of Cusco, for a cocktail showcasing biodiversity from Cusco and the Andes region. The cocktail will showcase different endemic and native crops to the Andes, such as tubers like oca, mashua and yacón, legumes like tarwi, grains like kiwicha, quinoa and cañihua and fruits like aguaymanto and chirimoya. The cocktail will exclusively work with locally sourced ingredients, including dozens of varieties of potatoes and other endemic species from the Cusco region, to create a unique culinary experience. The Vice President of Peru, Mercedes Araoz, the

Executive-Director of the Crop Trust, Marie Haga, and the Director-General of the International Potato Center, Barbara Wells, will also give short speeches on the importance of safeguarding agrobiodiversity for the future of food.

23 May, 10 am - 4:30 pm: *The Agrobiodiversity Symposium.* Food Forever, the International Potato Center (CIP) and Inkaterra Hotels are partnering to organize a symposium to understand and celebrate the vital importance of biodiversity as a prerequisite for food security, climate resiliency and competitiveness. This meeting hopes to promote a more integral support to the conservation and use of the agricultural biodiversity in Peru and in the region, by gathering key stakeholders ranging from government officials, private sector leaders, scientific researchers and renowned media personalities and chefs in Cusco, the symbolic center of the Andean culture.
